.....
.....

Time Within which Applicant Proposes to Complete Each Item of Work

(Specify time by reference to each condition for which bonding is requested).

.....
.....

Signatures

Applicant Date
Approved (Council) Date

Notes for Applicant

1. Council will exercise its discretion in respect of any works as to whether a bond will be accepted as security.
2. Estimates must include sufficient information for Council to determine that the cost of work under bond is feasible and must include a copy of Council approved plans and schedules where a bond to carry out works is required for any condition that requires Council approved plans as conditions of Resource Consent. The amount for which a bond will be required will, at Council's discretion, be between 1.5 and 2.2 times the actual estimated cost.
3. Your bond will be released upon receipt of notification, in writing, that condition(s) have been met, and following an inspection undertaken by Council to confirm that all conditions are met.
