## *Relocation of Buildings and Other Structures*

(Sections 12 and 150(6), Local Government Act 2002)

The following fee and bond are to ensure the protection of Council assets such as roads, street signage, street lighting, kerb and channelling, culvert ends, footpaths and water and sewer connections. Inspections will take place before and after relocation.

The bond will be refunded on demonstration that there has not been any willful or negligent damage or interference with Council assets.

Note that Resource Consents and/or Building Consents are required for the relocation of buildings and other structures. In addition, Council sets a separate bond for the relocation of buildings into the District. This is outlined under "Resource Management". Please refer to this section before relocating a structure into or within the District.

purposes for a period of 12 months from 1 July to 30 June each year..... \$675..... \$692

### Refunds

Any money collected and not used for actual and reasonable costs will be refunded. Note on Connections. The following installation fees apply to property located within 20 metres of a stormwater system or sewer main (as appropriate). The installation fees for a property located at a distance greater than 20 metres from the stormwater system or sewer main will increase by \$60 plus GST for each additional metre. Any stormwater or sewer connection larger than 100mm is considered extraordinary and will be charged on the basis of actual costs for each particular connection. (Legislation allows for rates to be collected from any property that is able to be connected to a service line.)

Note 1: Unless specified differently in this document, all fees and charges include Goods and Services Tax (GST).

Note 2 - Where a set charge or fee is inadequate to recover the cost of the service or is not otherwise specified, a charge may be made to recover the actual and reasonable costs of the service.

## Note on Connections

The following installation fees apply to property located within 20 metres of a water main. The installation or connection fees for a property located at a distance greater than 20 metres from the water main will increase by \$45 plus GST for each additional metre. Any connection other than 20mm is considered extraordinary and will be charged on the basis of actual costs for each particular connection. (Legislation allows for rates to be collected from any property that is able to be connected to a service line.)

## Council-Approved Contractor

- Only Council's contractor may install new water supply connections.
- Before the installation can commence, the property owner must apply in writing to Council and the application will take 10 days to assess. Once approved by Council the relevant fees must be paid before the connection is installed.
