

Stormwater and Sewerage

Note on Connections

The following installation fees apply to property located within 20 metres of a stormwater system or sewer main (as appropriate). The installation fees for a property located at a distance greater than 20 metres from the stormwater system or sewer main will increase by \$60 plus GST for each additional metre. Any stormwater or sewer connection larger than 100mm is considered extraordinary and will be charged on the basis of actual costs for each particular connection.

(Legislation allows for rates to be collected from any property that is able to be connected to a service line.)

Council-Approved Contractor

Council allows approved contractors to install new stormwater and sewer connections. The property owner is required to negotiate a price with the approved contractor.

Before the installation can commence, the owner of the property or the approved contractor must apply in writing to Council and an administration fee is payable. The application will take 10 days to assess and once approved by Council the invoice must be paid before the connection is installed.

Council or its agent must inspect the connection at the time of installation and connection to Council's stormwater or sewerage system
