

## Water Supply

### Note on Connections

The following installation fees apply to property located within 20 metres of a water main. The installation or connection fees for a property located at a distance greater than 20 metres from the water main will increase by \$45 plus GST for each additional metre. Any connection other than 20mm is considered extraordinary and will be charged on the basis of actual costs for each particular connection.

(Legislation allows for rates to be collected from any property that is able to be connected to a service line.)

### Council-Approved Contractor

Only Council's contractor may install new water supply connections.

Before the installation can commence, the property owner must apply in writing to Council and the application will take 10 days to assess. Once approved by Council the relevant fees must be paid before the connection is installed.
