

Ruapehu District Council WATER RESTRICTIONS

Sprinkler Ban

The Whanganui River and Makotuku River are below minimum flow levels.

Please actively participate and do your part to reduce household water consumption.

Do not use water sprinklers. Instead, use hand-held hoses to water your vegetable garden either first thing in the morning and in the evenings when the temperatures are cooler.

Avoid unnecessary water usage such as washing pathways or vehicles.

Take short showers instead of running a bath. Remember - Every drip counts.

Please check the Ruapehu District Council website for updates www.ruapehudc.govt.nz
